Circular No.: AL/MQS-Rev/2010

26th April 2010.

TO ALL REGISTERED MANUFACTURERS AND EXPORTERS OF TEA

Dear Sirs,

Sri Lanka Tea Board Standards/ Guidelines for Tea

Sri Lanka Tea Board Law No. 14 of 1975

Tea Control Act No 51 of 1957

Tea (Tax & Control of Export) Act No 16 of 1959

Sri Lanka Tea Board (Import & Export) Regulations 1981

Reference my previous Circular No.AL/MQS/08 of 24th April 2008 which has been replaced with this new Circular.

02. Sri Lanka Tea Board as the monitoring authority of quality/standard of teas exported is mandated to protect the image of Ceylon tea established globally. As you are aware, Sri Lanka Tea Board has introduced a set of standards/guidelines in year 2008 with power vested by statute and through experience in follow-up monitoring action during the past. This circular is released as a result of a number of complaints from buying countries received about contaminants and adulterants of tea exported from Sri Lanka and the comments forwarded in connection with the previous circular. As a protective measure the Tea Board has introduced and implements Standards and Guidelines for "Sri Lankan Origin Teas" and "Other Origin Teas" which are imported for re-export purposes. The Minimum Quality Standard will cover ISO 3720 for Black Tea and this standard is mandatory at the point of export of any teas.

03. The Guidelines pertaining to the limits indicated in the **Annexure - A** other than the established ISO standards (i.e. Chemical contaminants, Extraneous (Foreign) matters, Microbial contaminants and Maximum Residue Limits of Pesticides etc.,) should be taken only as guidelines for compliance by all registered manufacturers and exporters of Sri Lankan Origin Tea.

04. The limits indicated in the **Annexure - B** are considered as standards and should be strictly applicable for all other origin teas at the point of importation and exportation of the same after value addition. Hence non conformity to such standards in any other origin teas will be treated as grounds for rejection of import / re-export.

05. The above Guidelines and Standards are implemented with effect from 01st May 2010.

06. Any further clarification in this regard could be obtained from Mr. K. R. W. Abeywickrama, Assistant Director (Laboratory) on Telephone/ Fax no. 0112581576 or e-mail labsltb123@yahoo.com.

Yours truly,

Lalith Hettiarachchi

4) Pesticide Residues:

Following twenty seven pesticides are recommended for use by the Tea Research Institute of Sri Lanka (TRI). Therefore, Sri Lankan Origin Teas should not contain residues of pesticides other than in this list. In addition exporters of tea should be guided by the standards in the destination country as required by the importer. Maximum Residue Limits (MRLs) in EU and Japan for the respective pesticides are given for information.
