

## Notice

### Subsidy Program for Installation of Irrigation Systems for Medium Scale Tea Estates (between 10-50 acres)

#### Pilot Project - 2021

With the aim of introducing new technologies for tea cultivation and minimizing the impact of climate change, a subsidy program is implemented as a pilot project for medium scale tea landowners to encourage the use of drip and sprinkler water technology for tea cultivation subject to a maximum of Rs. 120,000 / - per acre.

Accordingly, the subsidy can be obtained for tea lands belonging to the medium scale tea plantation lands with the extent between 10 - 50 acres where tea plants have been planted and the focus is on the existing tea plantations and new tea plantations.

Relevant estates should be registered with **Tea Land Registry** of Sri Lanka Tea Board.

01. Subsidy can be obtained subject to a maximum of Rs.120,000 per acre.
02. When selecting lands where tea is already cultivated, there should be at least 3,500 tea plants per acre.
03. Minimum amount that can be applied is 01 acre and the maximum is 10 acres
04. It should be a land with a permanent water supply

**Applications can be obtained from the Sri Lanka Tea Board website [www.srilankateaboard.lk](http://www.srilankateaboard.lk) or from the following locations.**
